

Hamza Sharjeel

Software Engineer

Enthusiastic Software Engineering student passionate about MERN and PERN stack development. I thrive in dynamic environments, constantly updating skills to create efficient, user-friendly applications. Driven by a deep passion for crafting innovative solutions, I enjoy collaborating within talented teams to deliver robust software. Eager to contribute and learn more in the evolving landscape of software development.

SKILLS AND COMPETENCIES

Frontend Development

Backend Development

Jamstack

Firebase

Strapi

Problem-Solving

Team Collaboration

Innovative Thinking

Commitment to Learning

Adaptability

WORK EXPERIENCE

Jamstack Developer

Nexusberry

10 months (January 2023 - present)

- Development and deployment of sophisticated applications using MERN (MongoDB, Express.js, React.js, Node.js) and Jamstack technologies.
- Collaborating closely within a skilled team to architect, implement, and optimize scalable solutions.
- Designing and implementing robust backend systems leveraging Node.js, Express.js, and MongoDB for efficient data management.
- Exploring and implementing Jamstack architecture to create faster and more secure web applications.
- Continuous learning and deepening expertise in full-stack development, contributing to innovative software solutions.

React + Firebase Developer

MUC

3 months (October 2022 - January 2023)

- Contributing significantly to the development of React and Firebase-based projects.
- Designing and implementing engaging and responsive user interfaces using React.js.
- Integrating Firebase services for real-time data synchronization and seamless authentication processes.
- Active involvement in troubleshooting, implementing enhancements, and ensuring timely project deliveries.
- Strengthening frontend development skills and gaining valuable experience in real-time databases and authentication systems.

Software Development Intern

Nexusberry

10 months (January 2021 - October 2021)

EDUCATION

ADP Software Engineering

University of South Asia Lahore

2022 - Present

FSC Pre-Engineering

Bahawalpur Board

2019 - 2021

TECHNICAL SKILLS

HTML5

CSS3

Tailwind CSS

PHP

MySQL

PostgreSQL

Ant Design

MongoDB

Firebase

JavaScript (ES6+)

React.js

Next.js

Node.js

TypeScript

Express.js

Strapi

Jamstack

CERTIFICATES & TRAINING

Advanced Frontend Development Course

PNY

Completed an advanced course focusing on frontend development, likely covering advanced concepts in HTML, CSS, and JavaScript.

MERN Stack Course

Nexusberry

Completed a comprehensive course centered around the MERN (MongoDB, Express.js, React.js, Node.js) stack, emphasizing full-stack web development.

Python Course

YetP

Successfully finished a course in Python programming, likely covering fundamental Python concepts and applications.

MERN Stack Course

YetP

Completed another MERN stack course, potentially focusing on specific advanced concepts or applications within the stack.

Jamstack Course

Nexusberry

Completed a course dedicated to Jamstack architecture, covering its principles, tools, and implementations for modern web development.

PERSONAL PROJECTS

ConnectHub

A community-based social platform connecting local businesses and residents.

MERN Stack Course

A personalized blogging site allowing users to create and share content.

Python Course

A real-time chat application fostering instant communication among users.
